

King County
Department of
Natural Resources and Parks
Water and Land Resources Division

NOTE:
This map depicts the clusters of chinook salmon (*Oncorhynchus tshawytscha*) spawning areas and the approximate extent of salmon distribution. The depicted limits of clusters of chinook salmon spawning areas and the extent of salmon distribution are based upon information gathered from published and unpublished databases. The sources of data are Grette and Salo 1986; Ladley et al. 1996; WDFW and WWTIT 1994b; Williams et al. 1975. This may underestimate or overestimate the actual locations of clusters of chinook salmon spawning areas and the extent of salmon distribution. The information depicted on this map is current as of April 2001. All users of this map should seek the assistance of qualified professionals as needed to ensure that such users possess complete, precise, and up-to-date information on the clusters of chinook salmon spawning areas and water body location.

The information included on this map has been compiled from a variety of sources and is subject to change without notice. King County makes no representations or warranties, express or implied, as to accuracy, completeness, timeliness, or rights to the use of such information. King County shall not be liable for any general, special, indirect, incidental, or consequential damages including, but not limited to, lost revenues or lost profits resulting from the use or misuse of the information contained on this map. Any sale of this map or information on this map is prohibited except by written permission of King County. This map may also inaccurately depict the location of water bodies and does not depict all water bodies.

File Name: 0309 BEA_Fmap4-6.ai
Produced by: DNRP GIS and WLRD Visual Communications & Web Units.

- Areas of Chinook Cluster Spawning
- ⊥ Upper Extent of Salmon Distribution
- 28 River Mile (King Co. River Mgmt. Program)
- WRIA Boundary
- River Facility
- Stream/River
- Major Road
- King County Boundary
- 100 Year Floodplain
- Incorporated Area
